

Paddle for the Cure is a special support organization for breast cancer survivors. We offer a unique survivorship program that uses recreational dragon boat paddling to manage treatment side effects for breast cancer survivors and promote a positive and healthy lifestyle. Organized by survivors ourselves, we paddle our way to recovery with each other and a tremendous group of supporters and paddling enthusiasts along our side. A portion of our proceeds go to Komen Greater New York City for their support.

Our Mission

- To create a special sisterhood of breast cancer survivors
- To provide hope and support to other cancer survivors and their families
- To enrich our lives through dragon boat paddling
- To grow the sport of dragon boating in our community
- To unite our community for charitable purposes through dragon boat paddling and racing

Paddle for the Cure is a 501(c)3 organization (status pending). Your generous tax-deductible contribution will help our team support our mission. Thank you.
